

Specialist firm of Insurance Consultants launches service for Carer Sector

As a firm of specialist Insurance consultants who currently work with numerous Healthcare / Charity clients, we wish to advise that, with partnership with A rated insurers, we have established a dedicated team to provide insurance services to the “Carer” sector.

Who are Brennan Insurances?

Brennan Insurances are a firm of insurance consultants with roots dating back to 1926. Now part of the Capital Cover Group, the Brennan ethos is to work with specific sectors to provide a bespoke insurance product. This facility, designed by Brennan Insurances, in conjunction with members of the carer sector, provides comprehensive cover at a competitive price. It will also provide a team of professional consultants to administer the ancillary services of claims handling, risk management etc.

Why consider Brennan Insurance as your Insurance Consultant?

Whilst the majority of insurance brokers / consultants work with a diverse sector of commercial business, the Brennan ethos is to work with a small number of commercial industries, researching / learning the insurance requirements of the industry and then marrying this to an appropriate Insurance company.

Why is it essential to have an appropriate Insurance Company?

The majority of insurance companies will only provide a standard “off the shelf” products. Whilst in some cases this may be sufficient, it may not be suitable to an industry that has specific insurance requirements. In selecting a partner insurer, Brennan Insurances establishes that the Insurer has a strong working knowledge of the sector, can provide a bespoke product and a dedicated claims handling service, as well as having a long term commitment to the sector and the Irish market.

Examples of our current Facilities / Insurance partners are:

Industry Sector	Partner
Education	Allianz
Security	Hiscox
Oil Distribution	Travelers
Northwest Group	Aviva

Examples of Product Features under Bespoke Insurance facilities arranged by Brennan Insurances.

Guaranteed Rates	Rates are guaranteed for a specifies number of years (based on an agreed loss ratio).
Profit Share	This is an agreed premium rebate based on achieving and agreed loss ratio.
Interest free credit	Premiums can be paid over an agreed period of months at 0% interest.

Claims Handling

Whilst it is easy to comment in regards to what Insurers will do, the Brennan method is to agree, before cover commences, the methodology to be adopted when settling a claim.

This will involve:

- Agreed response time following claim notification
- Pre appointed adjusters / solicitors
- Agreed approach to how claim should proceed

The above is just a sample of some aspect of the products and services which we intend to bring to your industry. We hope you find our proposal of interest.
